

How healthcare providers can support expanding legal abortion:

Insights from Argentina, Ireland, and South Korea.

KIT Royal Tropical Institute kindly invites you to our webinar “*How healthcare providers can support expanding legal abortion: Insights from Argentina, Ireland, and South Korea*”, which will take place online on September 21st 2022, 13.00-14.30 CEST.

While historical gains have been made in the expansion of legal abortion with the contributions and advocacy of multiple actors, the role of health care providers in expanding legal abortion remains understudied. The aim of this webinar is to delve into why it is important to have healthcare providers as safe abortion advocates and explore the ways in which they can be involved in initiatives to support the expansion of legal abortion. We will be sharing insights gained from a cross-country study which focused on Argentina, Ireland, and South Korea and the event will close with a Q&A session with the audience.

To join the webinar, please register [here](#).

The event will be in English with Spanish interpretation.

Programme:

13.00 – 13.05	Welcome and introduction – Lisa Juanola (KIT Royal Tropical Institute)
