## Good taste, good feeling

**At the Royal Tropical Institute (KIT), we strive to create a sustainable future. This is implemented in all our work, including organizing wonderful events, which you will be able to see in the beverage menu.**

### **An honest taste**

We collaborate with local suppliers, whom are carefully selected for their social involvement. For instance our juices are from Schulp and our water from Ecotap or Earth Water.

### **Our assortment**

In our menu we provide you with a wide variety of drinks and packages. This allows you to base your decision based upon your company. This way there is something present for anyone.

### **External caterers**

If you are interested in an extension of beverages, such as a cocktail bar, then we would be happy to bring you in contact with our partners. Facilitating your own catering is not possible.

### **Contact**

If you have any questions, please reach us via email at [events@kit.nl](mailto:events@kit.nl), or by telephone on +31(0)20 5688504.

We wish you a nice journey through our beverage menu and on behalf of the entire team of KIT Hospitality, santé.
